

Benefits of Recycling

- Reduces the amount of waste sent to landfills and incinerators.
- Prevents pollution by reducing the need to collect new raw materials.
- Conserves natural resources such as timber, water and minerals.
- Saves energy.
- Reduces greenhouse gas emissions that contribute to global climate change.
- Helps sustain the environment for future generations.
- Helps create new well-paying jobs in the recycling and manufacturing industries in the United States.

Residents can also go on our website @ www.richlandrecycles.com click on the tab "Resources" and there is a Recycling Guide for you.

REDUCE,
REUSE,
RECYCLE

RECYCLING FACTS

- About one-third of an average dump is made up of packing material.
- Rainforests are being cut down at the rate of 100 acres per minute!
- A typical family consumes 182 gallons of soda, 29 gallons of juice, 104 gallons of milk, and 26 gallons of bottled water a year. That's a lot of containers - - make sure they're recycled.
- A modern glass bottle would take 4000 years or more to decompose - - and even longer if it's in the landfill.
- There is no limit to the amount of times aluminum can be recycled.
- The United States produces more e-waste annually than any other country. The amount of electronics that Americans throw away every year?
9.4 million tons

RECYCLE

RECYCLING COLLECTION FACILITY

Did you know that Refrigerators, Freezers, Air Conditioners and Dehumidifiers all contain Freon (coolant)? Our certified technicians remove the coolant from your appliances and recycle the Freon. We also recycle the metals from your appliances.
