# BUSINESS RECYCLING-WASTE-DISPOSAL SERVICE GUIDE

Visit our Website at  
[www.richlandrecycles.com](http://www.richlandrecycles.com)

## *INTRODUCTION*

Recycling is a technology that transfers discarded materials into useful products. It involves the collection of designated materials from the public, as well as businesses and industries through a variety of recycling opportunities. The opportunities contained in this Recycling Guide are primarily within Richland County. There may also be recycling programs, collection points or other collection systems organized within a business or industry.

This Recycling Guide also includes information concerning solid waste transfer and disposals, as well as a list of locations where you can purchase recycling equipment. This guide is based upon information gathered by the Richland County Regional Solid Waste Management Authority (RCRSWMA) and the Ohio Environmental Protection Agency's (OEPA), Division of Solid & Infectious Waste Management's (DSIWM) website. There may be a company not listed or inadvertently omitted from this Guide and to this the Authority apologizes. If a company is not listed or inaccurately listed, please contact the RCRSWMA at 1125 National Parkway, Mansfield, Ohio 44906 at telephone number 419-774-5861. This Guide will be revised periodically.

If you need additional information about the companies listed in this guide, please contact them directly. Other resources available to you are the "Yellow Pages", Ohio EPA, or the local RCRSWMA. The companies listed in this directory should not be considered as an endorsement or approval by the OEPA or the RCRSWMA. Furthermore, the businesses listed in the directory may not be inclusive of all of the recycling businesses in Richland County. Businesses not listed must call RCRSWMA to be added into the directory and current businesses must call RCRSWMA for updating current directory listings.

## **RECYCLING CAN MAKE A DIFFERENCE FOR BUSINESSES**

**Recycling has a big impact on businesses, the environment and you!**

**Consider the following facts:**

- Recycling is good corporate citizenship.
- Implementing effective environmental practices, such as recycling, can have economic rewards and customers notice! Workplace recycling also helps communities meet recycling goals.
- A typical business generates about 1.7 pounds of material per employee per day and much of it is recyclable paper.
- The most discarded products in an average office are 62 percent recyclable paper, 9 percent recyclable cardboard and 29 percent are other materials.
- Recyclables are the raw materials for many new products. Recycled paper supplies over 37 percent of the raw material for use in making new paper products. A high percentage of office paper is recycled into products such as cereal boxes, tissue and printing and writing paper.
- Every ton of paper recycled saves 3.3 cubic yards of landfill space. Currently more paper is recovered for recycling than is land filled.
- Recyclables have monetary value.

## **RECYCLING SEARCH ENGINE**

[www.earth911.org](http://www.earth911.org) is a comprehensive website which a detailed database of recyclers available in the United States. The site has updates with the latest database. The search can be based on the recycler, recycling material, area or city.
