

2019 RESIDENTIAL GUIDE TO RECYCLING

Richland County
Regional Solid Waste
Management Authority

Visit our Website at
www.richlandrecycles.com

INTRODUCTION

Recycling is the process that transfers numerous materials from the waste stream into useful products. The opportunities in this Recycling Guide are primarily within Richland County. The purpose of this Guide is to supply recycling opportunities to all Richland County residents. There may also be additional recycling programs, collection points or other collection systems located outside of Richland County in surrounding communities.

One opportunity for Richland County residents to recycle is by contacting local waste haulers who may provide a curbside recycling program. Please contact Richland County Regional Solid Waste Management Authority at telephone number 419-774-5861 for further information concerning curbside recycling.

The information contained in this Recycling Guide is based upon information gathered by the Richland County Regional Solid Waste Authority (RCRSWMA) and the Ohio Environmental Protection Agency's (OEPA), Division of Solid & Infectious Waste Management's (DSIWM) website. The RCRSWMA apologizes if a business or organization is not listed or was inadvertently omitted from this Recycling Guide. If a business or organization is not listed or inaccurately listed, please contact the RCRSWMA at 1125 National Parkway, Mansfield, Ohio 44906 or at telephone number 419-774-5861. This Recycling Guide will have the informational content updated periodically.

Should you need additional information concerning the listed businesses or organizations in this Recycling Guide, RCRSWMA recommends you directly contact the companies for more information. The businesses or organizations listed in this Recycling Guide should not be considered as an endorsement or approval by the OEPA, DSIWM or the RCRSWMA. Furthermore, the businesses listed in the directory may not be inclusive of all of the recycling businesses in Richland County. Businesses not listed must call RCRSWMA to be added into the directory and current businesses must call RCRSWMA for updating current directory listings.

FOR MISCELLANEOUS ITEMS TO RECYCLE, REFER TO THESE FOLLOWING RECYCLING SEARCH ENGINES

www.earth911.org is a comprehensive website which a detailed database of recyclers available in the United States. The site has updates with the latest database. The search can be based on the recycler, recycling material, area or city.

Richland Public Health offers local community information on recycling

<https://richlandhealth.org/our-community/recycle-richland-and-where/>

RECYCLING CAN MAKE A DIFFERENCE

Recycling has a big impact on the environment and you!

Consider the following facts:

- ⇔ Recycling is responsible earth stewardship. Each person creates about 4.7 pounds of waste every single day.
- ⇔ Implementing effective environmental practices, such as recycling, can have economic rewards. Residential household recycling also helps communities meet state and local recycling goals.
- ⇔ Recyclables are the raw materials for many new products. Recycled paper supplies over 37 percent of the raw material used in making new paper products. A high percentage of office paper is recycled into products such as cereal boxes, tissue, printing and writing paper.
- ⇔ Every ton of paper recycled saves 3.3 cubic yards of landfill space. Currently more paper is recovered for recycling than is land filled.
- ⇔ A regular automobile tire is made from five gallons of oil, but by recycling we reduce reliance on foreign oil.
- ⇔ Aluminum cans are recycled into: soda cans, pie plates, license plates, thumbtacks, aluminum foil, and many other items.
- ⇔ Recycling one aluminum can saves enough energy to power a TV for up to 3 hours.
- ⇔ PETE plastic can be recycled into clothing, fiberfill for sleeping bags, toys, stuffed animals, rulers and more
- ⇔ Glass can be recycled into jars, jewelry, bottles, dishes, drinking glasses, coffee mugs and much more

ROADWAY LITTER

1. Litter affects everyone in Richland County.
2. Litter destroys the beauty of our communities.
3. Litter can be washed into waterways and into groundwater causing environmental damage.
4. Neighborhoods that are heavily littered may experience more vandalism or other crimes.
5. Litter impacts real estate values and hinders economic development.
6. Government and business spend large sums of money for roadside litter cleanups.
7. Litter can be prevented by simply acting responsible, Please, Do Not Litter!

The Richland County Solid Waste Authority requests that all Richland County residents help clean up roadside litter during the Earth Stewardship months of April and May. Contact Richland County Solid Waste about our Earth Stewardship Litter Cleanup Program at 419-774-5861.
