August 26, 2020

The Board of Directors for the Richland County Regional Solid Waste Management Authority has approved funding for two \$500 grants to be provided to local schools. Schools are encouraged to apply for the grants by February 26, 2021. Grants will be awarded to student projects that are focused on bringing awareness to the areas of reduce, reuse and/or recycle.

All applications for the grants will be reviewed by the Board at the March 10, 2021 meeting and the winning projects will be announced on March 11th.

The Board is looking forward to this opportunity to reach out to the youth of Richland County. Good luck to all applicants!

Respectfully yours,

Eddie Hale
Executive Director
